Is Your Child Ready to Start JK This September?

The Language Express Preschool Speech and Language Program Can Help!

Sometimes when children start Junior Kindergarten it becomes clear that they are struggling with speech, language, or literacy skills. This is also when problems with stuttering often start or get worse. Don't wait until school starts; if your child is not meeting one or more of the milestones, contact Language Express right away.

Our Speech-Language Pathologists and Communicative Disorders Assistants can help your child and provide helpful ideas for you and your child's teachers. **The deadline for referring children entering JK (born in 2015) is November 30th, 2019.** After November 30th we will only accept referrals for children born in 2016 or later. It is never too early to refer if you have concerns. Language Express services are funded by the province and are free for families.
